1. Introduction

After completing an e-assessment, centres can access a Test Report for candidates via e-volve > “Results” tab > “Candidate Report” button.

While the Test Report will not include a final result (mark or grade) it can provide some useful information on Learning Outcomes where the candidate gave a strong performance and areas for improvement. This document looks at the kind of information that can be found in a Test Report and how to interpret it.

1.1. Test Report

Test Reports

8040-500 Level 2 Health and Social Care: Core (Adults)

Candidate Name	Candidate ref.	Test Date	Result
		22/01/2024	Not Applicable

The Test Report will always show the result as “Not applicable”. The final grade will be shown on the Walled Garden, this may be up to 20 working days after the exam is sat to ensure all quality checks have been completed.

Test Reports

It is important to note that as different weightings apply to different Learning Outcomes, taking the average of these percentages will not give an indication of the candidate result. Please refer to the “Test Total” for this. However, this information can be useful in identifying performance given by the candidate against each LO.

The Test Report generated immediately after an e-assessment is sat is not intended to be a final or official document. Because of this, readers should not draw any conclusion as to the final result (mark and grade) from the information included. The final result will be released once awarding and grading has taken place and be available on the Walled Garden.
